

LAYFLAT SLURRY HOSE 5 BAR

Code	Nominal inch	I.D (mm)	O.D (mm)	Pressure (bar)		Weight (Kg/m)	Length (m)
				Working	Burst		
SLF-05-300	12"	304.8	315.0	5	15	4.428	15
SLF-05-400	16"	406.4	420.4	5	15	6.129	15

APPLICATION

For discharge of abrasive slurries in mines and quarries, dry material handling of sand, gravel, grain, cement, slag and other such materials. Suitable for mud-removing pipeline-joining as the kit of the mire-digging ship in dredging the bay, river, Lake Etc.

CONSTRUCTION

Tube: Black color of NR blend compound. Oily mud resistance.

Cover: Black color of SBR blend compound. Sea water resistant, abrasion and weather resistant.

Reinforcement: Multiple layers of high tensile synthetic cord.

Temperature: -20°C to +90°C

Safety Factor: 3:1
