

PVC SUCTION HOSE (F-TYPE)

APPLICATIONS

- Widely used in industrial and agricultural applications for pumping and transferring needs.
- Suitable for conveying liquid, powder and granular material.
- Extensively used for suction and discharge - public utilities, drainage, ships, silos and irrigation plants
- Excellent corrosion - proof protection for cable - conduit and underground piping.

CONSTRUCTION

Medium Duty PVC hose reinforced with a continuous crush-resistant PVC helix. Optimum flow is maintained by smooth bore.

ID (mm)	Inch	Working Pressure (Bar)	Vacuum (mbar)	Bending Radius (mm)	Weight (g/m)	Coil Length (m)
25	1"	6	900	140	400	20
32	1-1/4"	6	900	160	600	20
38	1-1/2"	5	900	190	675	20
